Top Plate: 12" x 12" square stamped steel welded on 3" diameter, 16 gauge column

Standard Finish: Black Textured

Packed 2 per carton

Bar Height Model #: JIP3-7RDTP12SQBH

Overall Height: 40.5"

Weight: 12 lbs.

Base Plate: 7.5" diameter, 16 gauge metal cover over 5/16" thick steel plate

Top Plate: 12" x 12" square stamped steel welded on 3" diameter, 16 gauge column

Standard Finish: Black Textured

Packed 2 per carton

Increasing the width or length beyond the recommended one fixed base per 36" x 42" top may cause too much torque on the floor bolts. However, an additional base/s can help support longer tops, or one base per 42".

The top plate, column, and base plate are welded as one piece. Floor anchors are NOT included.

*** JI Bases does not supply floor-attaching hardware, nor give recommendations for hardware. ***
These decisions need to be made by the installer based on the type and condition of the floor.
